SUPPLEMENTARY INFORMATION:

Agenda:

The Scientific and Statistical Committee sub-panel will convene to examine closed-loop simulation results of the Prototype Management Strategy

Evaluation (pMSE) for Ecosystem-Based Fishery Management. Operating model scenarios will be based on a Georges Bank 10-stock, 3-fleet operating model with trophic interactions. The sub-panel will formulate suggestions for the pMSE team to improve the final results. The Council may also take these recommendations into account for a potential full MSE in the future.

Although non-emergency issues not contained on the agenda may come before this Council for discussion, those issues may not be the subject of formal action during this meeting. Council action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency. The public also should be aware that the meeting will be recorded. Consistent with 16 U.S.C. 1852, a copy of the recording is available upon request.

Special Accommodations

This meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to Thomas A. Nies, Executive Director, at (978) 465-0492, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*
